why

YOU SHOULD LEARN WITH US?

Having access to top-notch instructors and business authorities.

Instruction from faculty on the platform, itself.

Emphasize the special course certificate on your website, LinkedIn profile, and resume.

Working on ongoing projects.
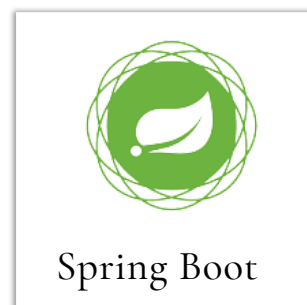

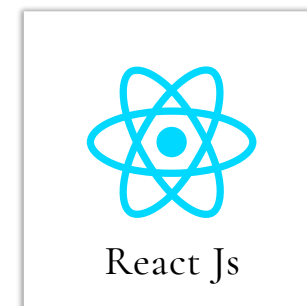

A certificate will be given upon completion of the course.

Individual focus on each child.

COURSE DESCRIPTION

In order for managers and potential applicants to be certain that the courses are appropriate and that they will result in the development of skills helpful to their organization.

Groot Academy describes its courses in plain, simple language. This straightforward technique is used to describe each of the courses included in this brochure.

Mongo DB	Express Js	Angular	React Js	NodeJs	Java
Python	Spring Boot	Digital Marketing	Mob App Dev	Artificial intelligence	DBMS
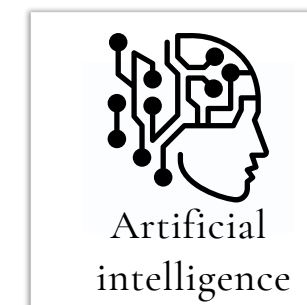

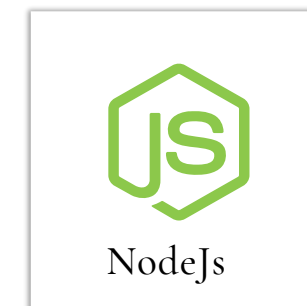

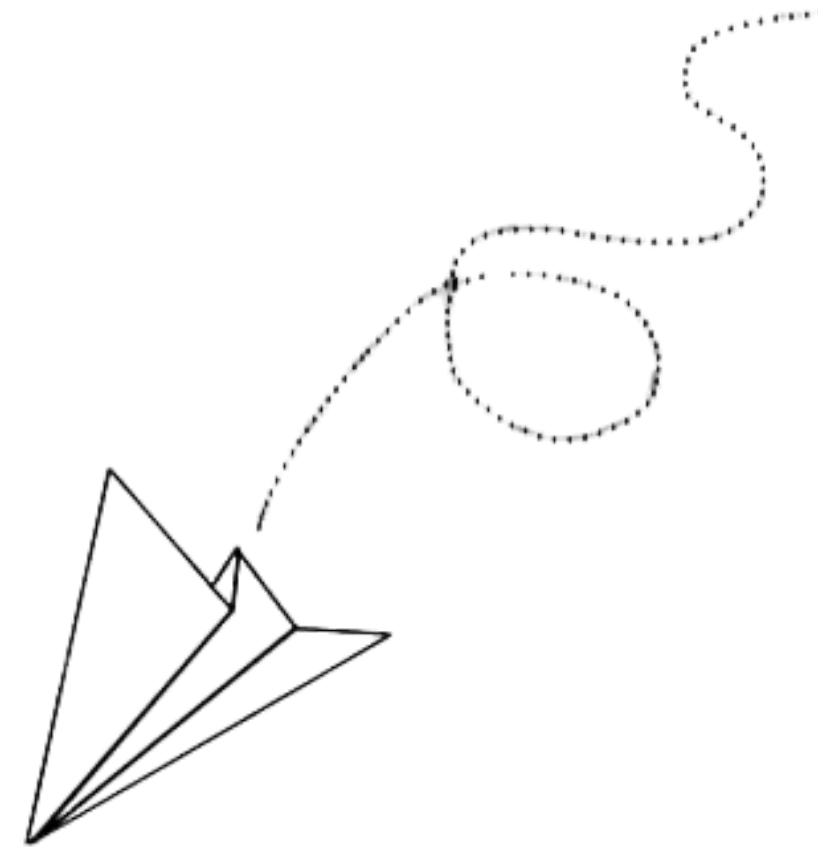

WEB DESIGNING COURSE

One industry that is here to stay is web design. That is, as long as the internet remains operational and a fundamental component of society.

A professional or a novice would be able to learn about cutting-edge web design technologies like Parallax scroll animations, 3D graphics, augmented reality (AR), Dark mod, etc. with a web design certification.

Hence, if somebody wishes to succeed as a web developer or UI/UX designer, getting a web design certification is the prudent course to take.

DURATION: 4 MONTH

Groot recognizes the value and interest of your time better than any other digital marketing institute in Jaipur. You may pick any subject that interests you from our specifically selected Digital Marketing curriculum and begin learning it at any level, from beginner to advanced.
You won't need to worry about doing a separate internship after finishing your course, which makes your trip extremely time-efficient. By doing so, you can acquire advanced talents without wasting time on the fundamentals that don't affect you.

TESTIMONIALS

ANISH GARG ★★★★★

Took data structures, algorithms, advanced Java, and C++ classes At Groot Academy. Learning about these topics was a fantastic experience. The faculty is outstanding and pushes you to be your best while developing your coding and other necessary skills.

HARSHIT SHARMA ★★★★★

Doing a data analysis course at Groot Academy in Jaipur will give you placement prospects in addition to the top instructors and cooperative staff.
From my perspective, the most incredible institute and I'm really happy because they give you the opportunity to work on real-time projects which works exactly like an internship.

DILIP SINGH ★★★★★

One of the greatest places in Jaipur to master digital marketing is Groot Academy. Here, practical knowledge is equally imparted alongside academic information. You will become familiar with all SEO and social media operations in Groot Academy in only 4-5 months. You will have a lot of practical work in this class, and the classroom discussions will help you improve your skills. I would strongly advise anyone looking for the best digital marketing education in Jaipur to join Groot Academy.

TEACHERS WHO WILL GUIDE YOU

Satnam Singh (Software Architect)

(10+ years of Experience)

"A new concept often appears unexpectedly and in an intuitive manner, although intuition is simply the result of prior intellectual experience."

Jitin Goyal (Software Engineer)

(5+ years Experience)

"Computer science is not only about coding. It too includes the development of positive changes in the society by developing something different."

Pawan Goyal (Software Engineer)

(4+ years experience)

"Every piece of technology should come with a customized guidebook that explains why, when, and how to use it, rather than just how to use it."

Sahid Khan (C, C++ & Java Trainer)

(3+ years experience)

"The transition from disorganized complexity to elegant simplicity is known as the user interface."

Bhaskar Yogi (Full stack developer)
(5+years experience)

"Almost any technique or technology can be used to execute a project with a well-functioning team of qualified individuals (although the process and technology may help or hinder them along the way."

Harshvardhan Chouhan (Python & Data Analytics)
(3+ years experience)

"No one has ever created the ideal piece of software in the brief history of computing. You won't likely be the first, I'm afraid."

Mohit Sharma (Full stack developer)
(5+ years experience)

"Learning to build programmers challenges your thinking, improves your thinking and fosters a method of thinking that, in my opinion, is beneficial in all fields."

Deeksha Saini(Python & Data Analytics)
(3+ years experience)

"The objective is to transform data into knowledge and knowledge into insight."
